### Jorge Alberto Rubio Bicentario Gran Reserva Malbec Roble 2019, Mendoza

*Labeled as malbec "Roble," a term most used by Rioja and yet wholly applicable to Mendoza to describe high and mighty fruit that does not see too much time in wood. Like a year, as found in Spain so that the wine can be ready for consumption three-plus years after harvest. This has come to that place, fragrance high and fruit depth of a concentration without barriers or walls while also kept from being gratuitously expressive. Great acidity and energy put this in beautiful varietal territory. Drink 2024-2027. Tasted April 2024.*

Value Rating: ★★★★★
